DEPARTMENT OF COMPUTER APPLICATIONS

ADITYA UNIVERSITY

A.Y. 2026-27

ADITYA UNIVERSITY

DEPARTMENT OF COMPUTER APPLICATIONS

CERTIFICATE

This is to certify that the internship report entitled “**Web Development with HTML, CSS and JAVASCRIPT**” is being submitted by **P. Hema Sri Sai Durga Prabhavathi - 25M11MC118** in partial fulfillment of the requirements for the award of the degree of **Master of Computer Applications** in the **Department of Computer Applications** for the academic year **2026–2027**. This report is based on the internship carried out at

ApexPlanet Software Pvt Ltd, and it reflects the student’s own work, conducted under our guidance and supervision.

Guide/Supervisor Name

Dr. Bapuji Rao

Assistant Professor

Head of the Department

Dr. Ramesh N S V S C Sripada

Associate Professor & HOD

DECLARATION

I hereby declare that the internship report entitled “**Responsive E-Commerce Website**” is a genuine and original work submitted to **Aditya University, Surampalem**, in partial fulfillment of the requirements for the award of the **Master of Computer Applications (MCA)** degree.

I further declare that this report has not been submitted, either in full or in part, for the award of any degree or diploma at this or any other educational institution.

P. Hema Sri Sai Durga Prabhavathi

(25M11MC118)

INTERNSHIP CERTIFICATE

CERTIFICATE OF COMPLETION

INTERNSHIP PROGRAM

This is to certify that

PEDDINTI HEMA SRI SAI DURGA PRABHAVATHI

has successfully completed the **Internship Program** at **ApexPlanet Software Pvt Ltd** in the domain of **WEB DEVELOPMENT WITH HTML, CSS, AND JAVASCRIPT** from **21 May, 2026** to **04 July, 2026** under the guidance of ApexPlanet Software Pvt. Ltd.

Duration: 6 Weeks & 2 Days | Mode: Virtual/Online

During the internship period, the intern actively participated in assigned tasks, project development activities, and practical learning exercises.

We appreciate the dedication and efforts shown throughout the internship and wish them success in future endeavors.

Authorized Signatory
Founder & CEO, ApexPlanet Software Pvt. Ltd.

Certificate ID: APSPL2634392

ACKNOWLEDGEMENT

First and foremost, I would like to express my sincere gratitude to the Director of **ApexPlanet Software Pvt Ltd, Er. Kundan Kumar**, for providing me the opportunity to undertake my internship within the organization. I am also thankful to all the team members at **ApexPlanet Software Pvt Ltd** for their patience, cooperation, and the friendly work environment they created, which made the experience truly enjoyable.

It is with immense pleasure that I express my sincere thanks to **Mr. Agni Tanmaya Behera**, Assistant Professor and Internship Coordinator, for coordinating the internship process and facilitating the smooth submission and evaluation of reports.

I am deeply grateful to **Dr. Ramesh N S V S C Sripada**, Head of the Department (Computer Applications), for his motivation, support, and for arranging all the necessary facilities and resources for the smooth execution of my internship project.

I also wish to extend my sincere thanks to **Dr. Bapuji Rao**, Assistant Professor, my internship guide, for his encouragement, valuable feedback, and consistent support throughout my internship.

I am thankful to the respected leadership of Aditya University for their unconditional support and for providing world-class infrastructure and state-of-the-art laboratories. My sincere thanks to:

- **Dr. N Satish Reddy**, Pro-Chancellor
- **Dr. M Sreenivasa Reddy**, Dy. Pro-Chancellor
- **Dr. M. B. Srinivas**, Vice Chancellor
- **Dr. S Rama Sree**, Pro Vice-Chancellor (Academics)
- **Dr. A Ramesh**, Pro Vice-Chancellor (Engineering & Sciences)
- **Dr. G Suresh**, Registrar
- **Dr. M V Rajesh**, Associate Dean (School of Computing)

Lastly, I would like to thank all the **faculty members, lab technicians, non-teaching staff**, and my **friends** who directly or indirectly helped and supported me in successfully completing my internship project on time.

ABOUT ORGANIZATION

ApexPlanet Software Pvt. Ltd. is a technology-driven software company dedicated to delivering innovative digital solutions through web development and application development services. The organization focuses on developing scalable, user-friendly, and high-quality software solutions that help businesses improve their digital presence and achieve growth.

The company is committed to using modern technologies and industry best practices to build reliable and future-ready applications. Along with providing software development services, ApexPlanet also conducts structured internship programs that offer practical learning, real-world project experience, and professional mentorship. These internship programs help students strengthen their technical skills and prepare them for careers in the software industry by working on industry-oriented projects using HTML, CSS, and JavaScript.

Mission:

To empower businesses by delivering innovative, reliable, and high-quality web and application development solutions while nurturing aspiring software developers through practical training, mentorship, and hands-on learning experiences.

Vision:

To become a trusted technology partner recognized for innovation, excellence, and customer satisfaction while creating opportunities for students and professionals to build successful careers in the software industry through continuous learning and technological advancement.

KEY INITIATIVES

During the internship, ApexPlanet Software Pvt. Ltd. focused on providing industry-oriented training in Web Development using HTML, CSS, and JavaScript. The internship was organized as a structured 45-day learning program divided into multiple tasks, starting from the fundamentals of web development and progressing to advanced concepts such as responsive web design, DOM manipulation, API integration, local storage, and complete web application development. The program emphasized hands-on project development, GitHub version control, and practical implementation of concepts to improve problem-solving and development skills.

Recognition and Impact

The internship program provided valuable practical exposure to modern web development technologies. Through continuous project development and task-based learning, I gained experience in building responsive websites, implementing interactive web applications, and managing project code using GitHub. The internship enhanced my technical knowledge, coding confidence, debugging ability, and understanding of industry development practices. It also strengthened my problem-solving, time management, and self-learning skills, preparing me for future software development roles.

Leadership

ApexPlanet Software Pvt. Ltd. encouraged a structured and professional learning environment by providing a well-planned internship curriculum, regular project-based tasks, and clear learning objectives. Throughout the internship, guidance was provided through the internship platform and task descriptions, enabling interns to develop technical skills independently while following industry standards and best coding practices. This approach helped learners build confidence and improve their ability to develop real-world web applications.

OVERVIEW

During my 45-day internship at ApexPlanet Software Pvt. Ltd., I gained practical experience in front-end web development by completing a structured learning program based on HTML5, CSS3, and JavaScript. The internship began with learning the fundamentals of web development and gradually progressed to responsive web design, DOM manipulation, API integration, local storage, and complete web application development. Throughout the program, I completed multiple hands-on projects that strengthened my understanding of modern web technologies and improved my problem-solving skills. I also learned Git and GitHub for version control and project management, enabling me to maintain and showcase my work professionally. The internship helped bridge the gap between theoretical concepts and real-world application development, preparing me for future software development roles.

KEY PROJECT: Responsive E-Commerce Website

The major project completed during the internship was the development of a Responsive E-Commerce Website using HTML5, CSS3, and JavaScript. The project was designed to simulate an online shopping platform with a modern, responsive, and user-friendly interface. It includes multiple web pages such as the Home page, Product Listing page, Product Details page, Shopping Cart, About, Contact, and Blog pages. The website features responsive navigation, product displays, shopping cart functionality, interactive buttons, and a clean layout that adapts to desktop, tablet, and mobile devices. The project emphasizes responsive design, reusable components, and an improved user experience while following modern web development practices. Through this project, I enhanced my skills in front-end development, responsive web design, JavaScript-based interactivity, debugging, and project organization using GitHub for version control. This project represents the successful application of the knowledge and skills acquired during the internship.

ABSTRACT

This internship report presents the work completed during a 45-day Web Development Internship at ApexPlanet Software Pvt. Ltd. The internship was designed to provide practical knowledge and hands-on experience in front-end web development using HTML5, CSS3, and JavaScript. Throughout the internship, I progressed from learning the fundamentals of web technologies to developing complete, responsive, and interactive web applications.

During the training, I successfully designed and implemented several projects, including a basic webpage, a responsive contact form, a personal portfolio website, a to-do list application with local storage, an interactive JavaScript quiz, an API-based random joke generator, a product listing page with filtering and sorting functionality, and a fully responsive E-Commerce Website as the capstone project. These projects helped me understand responsive web design, DOM manipulation, event handling, API integration, local storage, form validation, and user interface design.

The internship also introduced me to professional development practices such as organizing project files, debugging applications, testing website responsiveness across devices, and managing source code using GitHub. By completing these real-world projects, I enhanced my technical knowledge, logical thinking, problem-solving ability, and confidence in developing modern web applications.

Overall, this internship served as an excellent platform for applying theoretical concepts to practical development tasks and strengthened my foundation in front-end web development. The knowledge and experience gained during this internship have prepared me for future learning in full-stack development and professional software engineering.

ABSTRACT

WEEK 1 REPORT

1st Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	21/05/2026	1	Introduction to Web Development and HTML Basics
	22/05/2026	2	HTML Elements, Headings, Paragraphs, and Lists
	23/05/2026	3	Images,Hyperlinks and Tables
	25/05/2026	4	HTML Forms and Input Elements
	26/05/2026	5	CSS Basics, Selectors and Colors
	27/05/2026	6	Styling a Simple Webpage using CSS

Overview:

During the first week, I learned the fundamentals of web development. I studied HTML page structure, headings, paragraphs, images, hyperlinks, tables, forms, and input controls. I also learned CSS styling, including colors, fonts, spacing, and basic page layout. Finally, I created and styled a simple webpage using HTML and CSS.

Conclusion:

The first week provided a strong foundation in HTML and CSS. I became familiar with creating structured webpages and applying styles to improve their appearance.

WEEK 2 REPORT

2nd Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	28/05/2026	1	JavaScript Introduction and Variables
	29/05/2026	2	JavaScript Events and Alert Messages
	30/05/2026	3	Task 1 Completion
	01/06/2026	4	Contact Form using HTML and CSS
	02/06/2026	5	JavaScript Form Validation
	03/06/2026	6	Responsive Layout using Flexbox

Overview:

During the second week, I completed the remaining activities of Task 1 and started Task 2. I developed a contact form using HTML and CSS and implemented JavaScript validation to verify user inputs. I also learned Flexbox concepts to create responsive webpage layouts. The practical implementation improved my understanding of form handling and responsive web design. These activities strengthened my frontend development skills and enhanced my ability to create user-friendly web interfaces. I also learned the importance of validating user input before processing data.

Conclusion:

The second week enhanced my knowledge of responsive webpage development and JavaScript programming. I gained practical experience in developing contact forms and implementing validation techniques. Learning Flexbox improved my ability to design layouts suitable for different screen sizes. Overall, this week improved my confidence in creating interactive and responsive web applications.

WEEK 3 REPORT

3rd Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	04/06/2026	1	Responsive Layout using CSS Grid
	05/06/2026	2	Media Queries
	06/06/2026	3	Dynamic To-Do List using JavaScript
	08/06/2006	4	DOM Manipulation
	09/06/2026	5	Testing Dynamic Applications
	10/06/2026	6	Completion of Task 2

Overview:

The third week focused on responsive web design and JavaScript DOM manipulation. I learned CSS Grid and media queries to design webpages that adapt to different screen sizes. I also created a dynamic To-Do List application where users could add and remove tasks interactively. DOM manipulation techniques enabled me to update webpage content dynamically without refreshing the page. I tested the developed application to ensure proper functionality and user experience. These activities improved my practical understanding of interactive web development.

Conclusion:

The third week strengthened my skills in responsive design and JavaScript programming. I gained confidence in building dynamic web applications using DOM manipulation techniques. Working on real-time webpage updates improved my logical thinking and programming abilities. The practical projects completed during this week prepared me for more advanced web development tasks.

WEEK 4 REPORT

4th Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	11/06/2026	1	Responsive Design using Media Queries
	12/06/2026	2	Interactive Quiz using JavaScript
	13/06/2026	3	Image Carousel Development
	15/06/2026	4	Fetching Data from Public APIs
	16/06/2026	5	Displaying API Data Dynamically
	17/06/2026	6	API Integration Testing

Overview:

During the fourth week, I explored advanced JavaScript concepts by developing interactive web applications. I created an image carousel and quiz application to improve user engagement. I also learned how to fetch real-time information from public APIs and display the retrieved data dynamically on webpages. These activities introduced me to asynchronous programming concepts and improved my ability to integrate external services into web applications. Practical implementation enhanced my debugging and testing skills while improving application performance.

Conclusion:

The fourth week provided valuable experience in creating dynamic and interactive web applications. Working with APIs expanded my knowledge of real-world web development practices. I also improved my debugging, testing, and problem-solving abilities while developing interactive projects. This week greatly enhanced my JavaScript programming skills.

WEEK 5 REPORT

5th Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	18/06/2026	1	Personal Portfolio Website
	19/06/2026	2	Implementing Local Storage
	20/06/2026	3	Completion of Task 3
	22/06/2026	4	Multi-page Portfolio Development
	23/06/2026	5	Product Listing Page
	24/06/2026	6	Filtering and Sorting Features

Overview:

The fifth week focused on developing complete frontend projects using HTML, CSS, and JavaScript. I created a responsive portfolio website consisting of multiple sections and implemented local storage to save user data. I also developed a product listing webpage with filtering and sorting functionality to improve user interaction. These projects enhanced my frontend design skills and improved my understanding of browser storage techniques. I learned how to organize projects efficiently while maintaining responsiveness and usability across different devices.

Conclusion:

The fifth week improved my ability to develop professional web applications. I gained experience in implementing local storage, designing responsive layouts, and creating user-friendly interfaces. The practical projects enhanced my confidence in frontend development and strengthened my project development skills. Overall, this week prepared me for building complete web applications.

WEEK 6 REPORT

6th Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	25/06/2026	1	Capstone Project Development
	26/06/2026	2	Performance Optimization
	27/06/2026	3	Cross-Browser Compatibility
	29/06/2026	4	Mobile Responsiveness Testing
	30/06/2026	5	Final Project Testing
	1/07/2026	6	Project Documentation and Review

Overview:

During the sixth week, I concentrated on completing my capstone web development project by integrating all the concepts learned throughout the internship. I optimized the website to improve loading speed and overall performance. I tested the application on different browsers and mobile devices to ensure compatibility and responsiveness. I fixed minor issues identified during testing and prepared the final project documentation. This week provided valuable experience in software testing, optimization, and deployment practices. It also helped me understand the importance of delivering reliable and user-friendly web applications.

Conclusion:

The sixth week marked the successful completion of my internship activities. I gained practical knowledge in performance optimization, cross-browser testing, and responsive web design. The internship significantly enhanced my technical knowledge, programming skills, and confidence in frontend web development. Overall, this internship provided valuable industry exposure and strengthened my readiness for future software development projects.

OVERALL OUTCOMES

The 45-Day Web Development Internship at ApexPlanet Software Pvt. Ltd. was a valuable learning experience that significantly enhanced my technical knowledge, practical skills, and confidence in developing modern web applications. The internship followed a structured learning approach that progressed from the fundamentals of web development to the implementation of complete, industry-oriented projects using HTML5, CSS3, and JavaScript. This systematic training helped me understand both theoretical concepts and their practical applications in front-end web development.

During the internship, I successfully completed a series of projects with increasing levels of complexity. I began by developing a basic webpage to understand HTML structure, semantic elements, CSS styling, and JavaScript interactivity. I then created a Dynamic To-Do List Application with a user profile section, where I learned DOM manipulation, event handling, input validation, and dynamic content generation. I also developed an Interactive Learning Hub that included a JavaScript Quiz and a Random Joke Generator using a public REST API, which improved my understanding of asynchronous programming, Fetch API, JSON data handling, and responsive web design.

As the internship progressed, I designed a Responsive Personal Portfolio Website showcasing my profile, technical skills, and projects. The portfolio also included a To-Do List with Local Storage and a Product Listing module with filtering and sorting functionality, helping me gain practical experience in browser storage, responsive layouts, and interactive user interface development.

The final and most significant achievement of the internship was the development of a Responsive E-Commerce Website (TechStore). This capstone project integrated dynamic product listing, shopping cart management, search functionality, category filtering, price sorting, Local Storage, dark mode, smooth scrolling, and responsive design into a single application. This project allowed me to apply all the concepts learned throughout the internship in a real-world scenario.

In addition to technical skills, the internship improved my logical thinking, debugging, testing, problem-solving, project organization, and time management abilities. I also gained experience in using GitHub for version control and project management. Overall, this internship successfully bridged the gap between academic learning and practical software development, strengthened my foundation in front-end technologies, and prepared me for future learning in React.js, Node.js, Express.js, MongoDB, and Full-Stack Web Development. It has been an important milestone in my technical and professional growth and has increased my confidence to contribute effectively to real-world software development projects.
